

inflate your **profits** without the pressure!

replaces
over 98% of
OE TPMS
sensors

simplest
& most
efficient
solution

chosen by
the UK's
largest tyre
retailers

Tried, tested and chosen by over 3,000 tyre retail outlets and service centres throughout the UK

Unrivalled coverage from only 2 part references, replacing over 98% of existing OE TPMS sensors

No sensor obsolescence with all new protocol updates via the tool

Quickly and easily duplicates the ID codes of faulty sensors for the most efficient method of sensor replacement available in the market

Check tyre pressures without physically touching the valve

Wireless, contactless scan gives accurate diagnosis of TPMS sensors, including ID code, pressure, temperature & battery status

Instant availability, simply keep a small number of i-sensor® blanks in stock and create sensors as and when you need them

Reduce downtime in the workshop and waiting times for customers

Achieved OE approval in 2014 with one of the worlds most recognised vehicle manufacturers & also used as a main dealer warranty replacement part

Makes TPMS an accessible & profitable part of any tyre business

view the i-sensor® demo at www.autogem.co.uk/isensor

Why choose i-sensor® from Autogem?

The numerous benefits of the i-sensor® tool and programmable blanks are not all that Autogem brings to the table where TPMS is concerned

We have:

- a complete range of OE & aftermarket TPMS valve stems & components
- all the tools & equipment needed to handle TPMS related issues in the workshop or on the road
- the UK's largest & most experienced team of TPMS experts
- a dedicated technical support line manned by experts with over 40 years combined TPMS experience
- "TPMS Assistant" to aid users 24/7 - www.autogem.co.uk/tpms-assistant
- trained the UK's largest tyre retailers and wholesalers, with over 3,000 retail points using i-sensor®
- NTDA approved e-learning training platform - updated for 2019
- online resources to help with everything TPMS, including over 4 hours of hands-on & theoretical videos
